

The Art and Science of Fractional CO₂ Facial Rejuvenation

Advanced Techniques and Practical Training

Mark Kofford, MD/PhD

This course is designed for MiXto SX® users seeking advanced training and techniques in the art and application of fractional CO₂ skin resurfacing.

Dr. Kofford has a doctoral degree in wound healing and collagen rejuvenation. As a skilled aesthetic surgeon, Dr. Kofford has taken traditional and fractional laser resurfacing to a whole new level.

Having extensive experience in treating patients with the MiXto SX® Micro Fractional CO₂ Laser, Dr. Kofford will teach his methods intended for achieving optimal results.

This is an exclusive 1 ½ day course specifically for MiXto SX® users, sponsored by LASERING USA. The course is limited to 4 participants to ensure a personalized hands-on experience with actual patient treatments.

The course will cover advanced techniques in fractional CO₂ facial resurfacing and other related topics including but not limited to:

- Ablative vs. non-ablative
- Erbium vs. CO₂ laser
- CO₂ Laser – short pulse vs. long pulse
- Resurfacing - traditional vs. fractional
- Single vs. multi-pass techniques
- Upper & lower eyelid treatment
- Patient anesthetic techniques
- Treatment of ethnic skin types
- When to use the 180 µm vs. the 300 µm spot size
- Patient preparation/preoperative care/recovery time
- Postoperative care/management of adverse side effects
- Dermal fillers - contour restoration, placement techniques
- Marketing – consultation methods - treatment packaging and closing
